

Tortoise Capital Advisors

Closed-end fund comparison

Tortoise Capital Advisors is one of the largest managers of registered energy infrastructure funds, with approximately \$16.8 billion¹ across listed closed-end funds, mutual funds, private funds and separate accounts.

Tortoise, an industry pioneer, was among the first investment firms dedicated to listed energy infrastructure investments, forming one of the original investment teams dedicated to master limited partnerships (MLPs). Founded in 2002, seeing a need for growth capital, Tortoise also led the first MLP institutional direct placement and launched the first NYSE-listed closed-end fund focused on investing in energy infrastructure MLPs.
